## CONTENT STRUCTURE BEST PRACTICE

### 01 What is the Problem?

Start by speaking about the problem your product is solving.

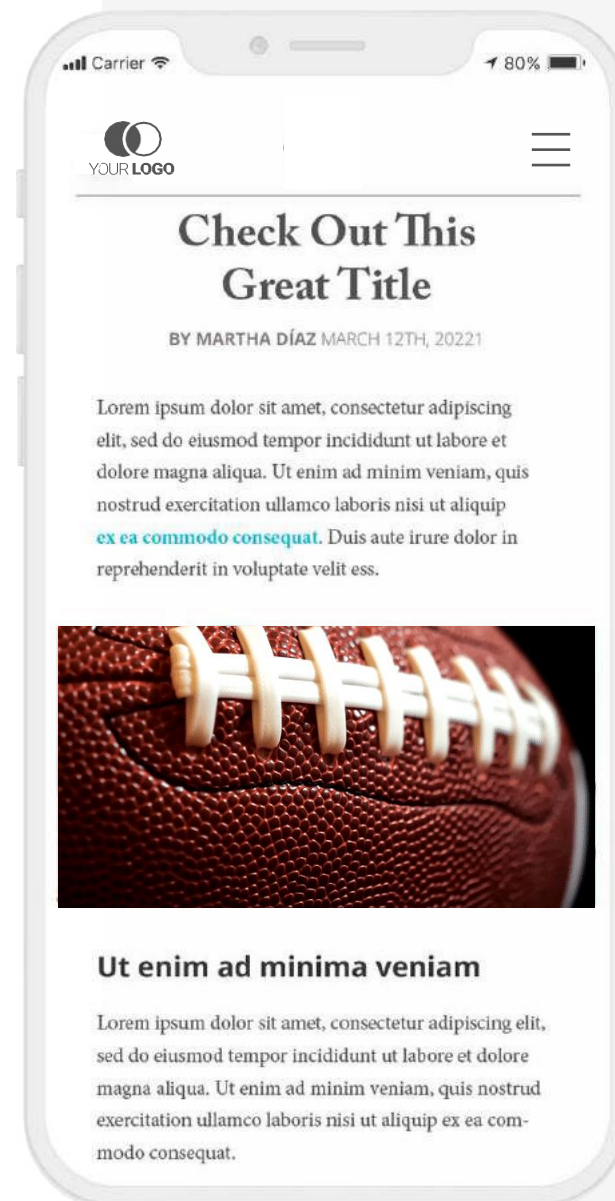

The reader needs to understand the problem first, not the product.

### 02 Why Should this Problem be Solved?

In 1-2 sentences, educate your target audience on the importance of solving their problem. Speak about how their lives will improve if they fix the issue.

Mention the pros and cons of eliminating the problem, and rule out the cons the reader might have.

Make the solution to the problem simple. The reader should clearly understand that taking action to solve the problem will be easy, especially regarding time, effort, and cost.

### 03 How Can Your Product Help?

Explain the solution to the problem, not the product.

Put emphasis on the unique selling points your product offers. Show your expertise in a simple, concise manner.

### 04 Why Should They Take Action Now?

Define why it's important for the user to take action immediately. Use techniques such as urgency or FOMO, user testimonials or reviews, comparisons to competitors, and other points.
